HEALTHY TIPS!

- On the days you don't run, do other muscle moving and bone strengthening activities such as hop-scotch, riding your bike, playing basketball or swimming.
- When you're running, you should be able to talk to others.
- Drink plenty of water throughout the day. Wacky fact: Your urine should be the color of lemonade if you're drinking enough water.
- Tell someone if something hurts or you don't feel good while running.
